Evaluation Question

Q) Write a program that reads an amount from user in Riyals and converts it to US Dollars and GB Pounds. The program asks the user to enter the choice of Pounds or Dollars and accordingly it will convert the currency. $0.2\text{GBP} \leftrightarrow 1\text{SAR} \leftrightarrow 0.27\text{USD}$ Once the answer is given, the program asks the user if they want to continue:

- To continue: 'y', 'Y', "Yes", "yes" only
- To exit: 'n', 'N', "No", "no"
- Anything else, is exit

Sample Run:

Enter the amount in Riyals: 1500.25

Enter the choice to convert USD or GBP: GBP

The amount in Pounds = 300.05 GBP, 300 GBP

Do you want to continue: y

Enter the amount in Riyals: 12334

Enter the choice to convert USD or GBP: FF

Incorrect currency. USD or GBP only

Do you want to continue: Yes

Enter the amount in Riyals: 1500.25

Enter the choice to convert USD or GBP: USD

The amount in Dollars = 405.07 USD, 405 USD

Do you want to continue: no
